

# NATIONAL CENTER FOR EDUCATION STATISTICS

## What Is IPEDS?

IPEDS is the Integrated Postsecondary Education Data System, a comprehensive database of information on postsecondary education in the United States. It is the primary source of data for the U.S. Department of Education and the National Center for Education Statistics. IPEDS data is used to monitor and evaluate the performance of postsecondary education institutions, to inform policy and practice, and to provide information to the public.

IPEDS data is collected from all postsecondary education institutions in the United States that are eligible for federal financial aid. The data is collected through a series of questionnaires that are sent to institutions by the National Center for Education Statistics. The data is then processed and made available to the public through the IPEDS Data Center.

## What Is the Purpose of This Report?

The purpose of this report is to provide information on the performance of postsecondary education institutions in the United States. The report is based on data from the IPEDS Data Center and is intended to provide information to the public, to inform policy and practice, and to provide information to the U.S. Department of Education and the National Center for Education Statistics.

## What Is in This Report?

This report contains information on the performance of postsecondary education institutions in the United States. The information is presented in a series of tables and charts that show the performance of institutions in various areas, including enrollment, graduation rates, and financial aid. The information is presented in a way that is easy to understand and use.

## Where Can I Do More with IPEDS Data?

There are many ways to use IPEDS data. You can use the data to compare the performance of different institutions, to track the performance of an institution over time, and to identify areas where an institution is performing well or needs improvement. You can also use the data to inform policy and practice, and to provide information to the public.
