CFCE (Certified Forensic Computer Examiner) through IACIS (The International Association of Computer Investigative Specialists). This certification is an international industry credential that validates the knowledge of Law Enforcement and Investigative professionals with expertise in forensic examination of computer evidence.

ENCE® (EnCase Certified Examiner), The EnCase® Certified Examiner (EnCE®) program certifies both public and private sector professionals in the use of Guidance Software s EnCase computer forensic software. EnCE® certification acknowledges that professionals have mastered computer investigation methodology as well as the use of EnCase during complex computer examinations. Recognized by both the law enforcement and corporate communities as a symbol of in-depth computer forensics knowledge, EnCE® certification illustrates that an investigator is a skilled computer examiner.

ACE (AccessData Certified Examiner), The AccessData Certified Examiner program certifies individuals in both public and private sectors on their proficiency in the use of AccessData products including Forensic Toolkit (FTK), FTK Imager, Password Recovery Toolkit (PRTK) and Registry Viewer. The ACE credential provides corporate and law enforcement agencies with recognition of AccessData tool-centric knowledge and practical application of the Ultimate Toolkit.

E perience Highlights
