15 March 2018

Using the PyPy Sandbox to explore Mobile Code Sandboxing (1:10-1:50 pm ET)

become ubiquitous and powers much of the dynamic Internet. Moreover, applications are increasingly being treated like Mobile Code and sandboxed in one form or another.

h h @ t has all operating system calls re-routed to a cont650())-ea de g system g0u@1CaauthanrizW*
