CAE Research Project Meeting Minutes

- o Temp, humidity, sound, air quality were determined to be the most critical.

Agreed that we should we should get more boards: Dr. Ramson suggested getting 5 more for developing. Sky will purchase these on Amazon

Tasks:
- o Maria and Zaryn
  - Start assembling the new IoT data to get something like the old IoT data. Can our data be preprocessed? How?
  - Get CSV files and be able to use it for past algorithms
- o Emily and Megan:
  - Investigate ThingsBoard capabilities.
  - Help Sky program the Arduino.
- o Drew, Sky, Nate
  - Hook up the rest of the boards using the new configurations
  - Make better ThingsBoard Dashboards.
- o Hector and Zach
  - Help out with TB and programming.
- o Megan
  - Worked on getting recommended software to work: more research into this.
  - Getting started on Titan.
- o EVERYONE:
  - Be in communication with Dr. Ramson for additional information and tasks.

Adjournment at 7:22
