

Liberal Studies Committee Minutes
April 17, 2008
3:30-5 p.m.
Stabley 103

Present: M. Sadler, M. Stahl, B.G. Wilson, S. Reid, T. Wacker, F. Slack, E. Auvil, D. Pistole, C. Zoni, Y. Asamoah, K. Mckee

Excused: M. Hildebrandt
Guest: Dr. John Woolcock

Minutes from April 10th meeting were approved on a Wilson/Reid motion with a minor correction.

On a Zoni/Wacker motion approved the LS component of the Bachelor of Science Education – Deaf Education program.

Reviewed CHEM 105 The Forensic Chemistry of CSI with proposer Dr. John Woolcock. On an Asamoah/Wilson motion gave provisional approval, pending UWUCC approval, for this course as a non-lab science. On a McKee/Wacker motion will agree to allow students who take the 281 version of this course to count this as a non-lab science until such time as the UWUCC takes action on the CHEM 105 proposal.

The proposers of LBST 499 Puppetry and Masks-Signs of Life did not attend the meeting. Additional comments on the proposal include: 1) questioning whether the focus is too narrow, and 2) explain how a student with a non-theater or non-fine arts degree would fend in this course.

Update provided on the LS revision proposal and the Town Meeting schedule.

April 17th will be the final meeting for the semester.

Meeting adjourned at 5 p.m.
