NSM & HHS subcommittee proposals

Mathematics

General notes on Mathematics proposals: 1. The committee could not support the Department's request for three courses (MATH 122, 126, and 225) that are currently listed as LS electives only, to be included as part of the Mathematics Learning Skills courses as well. These are not courses (Calculus II and III) that can typically be taken as the first and potentially only course in the Mathematics learning skills area (3-4 cr). 2. The Department, in the course proposal for MATH 219, states that it is currently a LS course. However, it is not listed as such in the catalog so we are returning the proposal for clarification.
