**Part II: Description of Curriculum Change**

1. CHEM 410 (0c-3l-1cr). Advanced Inorganic Chemistry Laboratory. is being deleted.

2. **Rationale:** Advanced Inorganic Chemistry has traditionally been taught in our department as a three credit lecture (CHEM 411) plus the one credit, three hour laboratory (CHEM 410). Both required courses tend to be taken in the fall semester of a Chemistry major's senior year. In

response to changes from our accrediting agency, the American Chemical Society (ACS), the CHEM 411 has been and streamlined into a combined three credit lecture and lab. The course revision for CHEM 411 is in this package.

2. **Effect on students/courses:** This course is taken only by Chemistry majors. Its deletion will
