Part II. Description of the Curriculum Change

1. Deletion of CHEM 499 (Problems in Chemical Education) from College Catalog
2. CHEM 499 has been absorbed into CHEM 498 (Problems in Chemistry). CHEM 498 is the department's undergraduate research course, and the chemistry faculty believe that chemistry education research is an equally valid form of undergraduate research, so having both 498 and 499 is a needless duplication.
