**Objective 6:** Students will be able to explain the causes of computer addiction and how it can be avoided

**Liberal Studies Course Designations (Check all that apply)**

What the student would submit is the comparison. Have the student then list a few things they could do and then try them. Other topics will include texting while driving and walking and how that affects health. A discussion of the health problems with the latest technology. For example, the new Apple Watch is causing problems with people who have dark tattoos on their wrists. An exercise will entail students listing safe health usage practices with a specific mobile device.
