

Current Catalog (from the Senate agenda of April 29, 2014)

**Nutrition Minor**

This minor is recommended for students majoring in related disciplines, such as nursing and allied health, pre-medical, pre-pharmacy, food service management, health and physical education, child development, and family and consumer sciences, and for students who have a personal, consumer-

**Rationale for Change to the Minor in Nutrition**

The proposed changes accomplish the PASSHE requirement that a minor contains a minimum of 18 credits. In addition to the increase in credits,
