Part II. Description of Curricular Change

1. Proposed Catalog Descriptions:

RGPL 341 Climatology

**3 class hours
0 lab hours
3 credits
(3c-0l-3cr)**

Examines the elements of weather and climate on Earth. The location and causes of global climatic regions are examined in relation to moving pressure and wind systems. Also considers the climatic history of the planet and recent human modifications of the atmospheric environment. (Also offered as GEOG 341; may not be taken for duplicate credit).

GEOG 341 Climatology
