Part II. Description of Curriculum Change

1) New Catalog Description

GE 341 Climatology

3c-01-3sh

Examines the elements of weather and climate on Earth. The location and causes of global climatic regions are examined in relation to moving pressure and wind systems. The course also considers the climatic history of the planet and recent human modifications of the atmospheric environment.

2) Changing the Catalog description for GE 341 Climatology

Old Catalog Description:

GE 341 Climatology

3c-01-3sh

Elements of weather and climate and the climatic regions of the earth are studied in relation

to other aspects of the physical and biological environment.

New Catalog Description:

GE 341 Climatology
