Part II. Description of Curriculum Change
1) New Catalog Description

GE 342 Physiography

3c-01-3sh

forces that build landforms, and the weathering and erosional processes that erode and shape surface features. The relationship between human activities and landforms is also considered.

2) Changing the Catalog description for GE 342 Physiography

Old Catalog Description:

GE 342 Physiography

3c-01-3sh

Focuses on the study of landforms and water features. Types, distribution, and processes of formation are considered in relationship to the human landscape.
