Employment opportunities for planners are excellent. This program has prepared students to work in planning agencies at the federal, state, regional, county, and local levels as well as in the private sector with planning consulting and engineering firms. As planners, they have been trained to work with the public to guide growth and change in metropolitan regions across the country. The two **tracks**—**Environmental Planning** and **Community Planning and Development**—are designed to focus on the knowledge, techniques and strengths of the faculty members, as well as provide students maximum opportunity to be competitive in the planning job market.
