B4: Seats can be made available to students in the School of Continuing Education on a limited basis if needed.

Section C: Implementation

C1: The Anthropology department faculty includes a number of archaeologists who are able to teach this class, which will be taught every other year as part of the revised archaeology track.

C2: a. Current space allocation is adequate to offer this course.

h Mo additional laboratory equipment is necessary for this course

- c. No additional supplies or goods are necessary for this course.
- d. Library holdings are adequate or can be purchased through the departments normal allocation.
- e. There are no travel expenses.

C3: None of the course activities are covered by a grant.

C5: We plan to offer one section of the course every other Spring semester.

C6: No more than 24 students can be accommodated in this class because the hands-on nature of the course places constraints on the number of students the instructor can handle effectively.

C7: No.

C8: This course is not a distance education course.
