Part II. Description of Curriculum Change

- 1. A complete catalog description including the course name, class and lab hour**

description

New catalog description:

To deal with this weakness, the Safety Sciences' Department Curriculum Committee

– in consultation with class instructors – was tasked by the Department Chairperson to critically examine the appropriateness of all SAFE current course prerequisites, especially those identified earlier as having a history of overrides. The Curriculum Committee has conducted its review of safety science courses and is recommending that the list of prerequisites be revised to include only those which are truly critical

and appropriate for the successful completion of the course. As a part of this review, it is being recommended by the Safety Sciences Department's Curriculum Committee that CHEM 101: College Chemistry I becomes the only prerequisite for
